ESTABLISHED 1833. FORT WAYNE, IND., WEDNESDAY, MARCH 21, 1900. PRICE TWO CENTS.

WITHOUT RELIEF.

NO NEWS COMES FROM TOWN OF MAFEKING.

SIEGE IS NOT YET RAISED

BOERS RETREATING TOWARD CHRISTIANA.

HARD FIGHTING ON SUNDAY

BOERS MAY ABANDON DEFENSE OF FREE STATE.

London, March 21.—2:20 p. m.—The only news from South Africa showing activity on either side comes from Warrentown, north of Kimberley, where desultory fighting occurred all Sunday, resulting in the retreat of the Boers toward Christiana, under shell fire. The progress of this column towards Mafeking has either almost ceased or is forbidden to be mentioned in the dispatches.

Nothing new comes from Colonel Plumer and Mafeking apparently still awaits relief.

The Pretoria account of the skirmish at Fourteen Streams March 16. says that a Boer commander was preparing to destroy a railroad bridge and that the engagement lasted half an hour, with the result that one bugler was slightly wounded.

The same dispatch announces the arrival at the Transvaal capital of General Schalkburger, from Natal.

The second edition of the Times, today, publishes a dispatch from Bloemfontein, dated Monday, March 19, which says:

"The blowing up of bridges by the Boers is an evident sign that the Transvaalers intend to abandon the defence of the Free State."

All is quiet in the south and west. A corps of young boers from the farms surrounding Bloemfontein, under an imperial officer, has been detailed for police work and to prevent the further looting of abandoned farms by the Kaffirs.

It is aid that when President Kruger left Bloemfontein after his recent visit there, President Steyn's parting remark was:

"Mind the British do not catch you or you will get better quarters at St Helena than I."

Rudyard Kipling has gone to Bloemfontein.

The Boers at Aliwal North are reported by still holding a position in the big hills, on the Free State side. From a Pretoria dispatch it appears some misunderstanding regarding Lord Salisbury's reply to America's offer of mediation exists there. It had been quoted to the effect that Lord Salisbury said he could accept the intervention of no other power, which leads to the belief that the American representations would be listened to in the final settlement.

Private Cole, the Canadian whom the queen visited at Netteley hospital, returned to South Africa today, fully recovered from his wounds.

SWITZERLAND'S ANSWER.

Berne, Switzerland, March 21—The federal council has answered the Boer appeal for mediation as follows:

"The Swiss federal council would have been pleased to co-operate in friendly medintion in order to end further bloodshed, but as the presidents of both South African republics have directly approached the British government in order to conclude peace on a basis indicated, and the British government has shown itself against the proposal; and as, furthermore, the British government has declared to the cabinet at Washington that it did not propose to accept the intervention of any power, the Swiss federal council, to its regret, must also renounce the idea of taking any steps on the lines of the request made by the presidents of the South African republics. There remains for the federal council, in the circumstances, nothing but to express its sincere wish that the belligerents will have succeeded, at no too distant date, in finding a basis for an understanding honorable to both parties."

RAILWAY IS OPEN.

New York, March 21.—A dispatch to the World from Pietermaritzburg says:

A temporary bridge across the Tugela at Colenso is now open for traffic and establishes a direct railway service between Durban and Elandsalaagte. The first train to cross the bridge was the Princess Christina's hospital train. This magnificent train has been badly wanted in Natal since the beginning of the war. Major Brazier Creagh's improved hospital train has removed about 4,000 wounded, but though every care was taken, the narrow doors of the carriages and the bumping and shunting has caused much pain, which with appliances now at hand may be avoided. There are still over 2,000 patients in the Ladysmith hospital, so the train is not too late.

SMALLPOX ABOARD.

New York, March 21.—The British steamer Pawnee arrived today from Mediterranean points, via Bermuda, and was detained at quarantine owing to the presence on board of three cases of smallpox, John Crawford, third engineer, Wm. McDonald, second engineer, and John Melbourne, the colored steward. The patients will be sent to Riverside hospital, and the crew detained until all danger from the disease is past. The Pawnee is one of a large fleet of steamers employed in the Mediterranean trade.

HERO OF PLEVNA IS DEAD

THE GREAT OSMAN PASHA IS NO MORE.

He Was the Greatest Turkish Soldier of Modern Times—Beat the Czar's Finest Troops.

New York, March 21.—A dispatch from Constantinople announces the death of Osman Pasha, the hero of Plevna and the greatest Turkish soldier of recent times. He was 68 years of age. His defense of Plevna against an overwhelming Russian force in 1876 gave Osman enormous prestige. By the entrenchments he caused to be thrown up he arrested for four months the advance of the Russians.

In three pitched battles he overcame the finest troops of the czar's army. On July 1, 1876, he inflicted a loss of 3,000 killed and wounded on his assailants. The next battle cost the Russians 170 officers and 7,116 men, and the third and most stubborn assault of Skobeloff later on, when the Russian grenadiers got within 500 yards of the trenches, but failed to pass the fatal fire zone, ended in a Russian loss of from 18,000 to 20,000 men.

It was resolved to starve out the army of Osman, which originally numbered about 56,000 men, and an army of 120,000 Russians completed the investment.

At length, forty-five days after the close siege had been established, 144 days after his own arrival at Plevna, Osman determined on a desperate attempt to cut his way through. The struggle was of the fiercest sort, but many hours bayonet fighting ended in the Turks being driven back and the "defender of Plevna" surrendered with the honors of war.

When the sultan learned of the death of the famous general, he exclaimed: "Allah is unmerciful. He has deprived me of my honest, true friend and most valiant supporter."

ICE-BOUND BOATS RESCUED.

Cleveland, Ohio, March 21.—After a terrific battle with ice, the fire boat Clevelander, carrying a large supply of provisions, today succeeded in reaching the two fishing tugs and the fire boat Farley, imprisoned in an ice field off this port. The fishing tugs started out from here Monday evening for Huron and were caught in the ice, from which they could not get free. In response to their signals of distress the fire boat Farley was sent early yesterday morning to their assistance, but she became jammed in the ice and was rendered helpless. Early today the powerful fire boat Clevelander was started out and after two hours' work succeeded in opening a channel through ice eighteen inches thick to the three vessels. Thirty men, all told, were on the three ice-bound vessels. They suffered intensely from hunger and cold. There was practically no food on any of the imprisoned vessels when they left port.

The four boats found little trouble in steaming their way into the river after a channel had been opened by the Clevelander. The fishing vessels were damaged to a considerable extent by the ice. As the fleet came up the river it was greeted by cheers from many people along the docks.

James Thompson, who resides on South Calhoun street, was stricken with paralysis on Tuesday and his condition is now most critical. Mr. Thompson suffered a stroke not long ago, and had barely recovered from it when stricken again.

FOREIGN AFFAIRS COMMITTEE WILL ACT.

NO DIRECTION FROM HOUSE

WHEELER'S RESOLUTION HAS SOME EFFECT.

TO INVESTIGATE CHARGES

MINOR MATTERS TAKEN UP IN CONGRESS.

Washington, March 21.—The house committee on foreign affairs has decided to investigate the allegations made by Charles F. Macrum, ex-consul to Pretoria, South Africa, relative to the opening of his official mail by the British authorities. Representative Wheeler, of Kentucky, introduced a resolution to this end, which was referred to the committee on rules.

After some consultation Chairman Hitt, on behalf of the foreign affairs committee, agreed to investigate the charges without the direction of the house, if that would be satisfactory to Mr. Wheeler, the author of the resolution. Mr. Wheeler assented and has wired Mr. Macrum to come to Washington as soon as possible to appear before the committee.

IN THE HOUSE.

Washington, March 21.—When the house met today Mr. Dalzell, of Pennsylvania, from the committee on rules, presented a report from that committee for the appointment of a special committee of nine to consider all proposed legislation relative to the celebration of the one hundredth anniversary of the purchase of the Louisiana territory, at St. Louis, in 1903. The speaker appointed the following committee:

Messrs. Tawney, of Minnesota; Steele, of Indiana; Sherman, of New York; Joy, of Missouri; Corliss, of Michigan; Burke, of South Dakota; republicans; and Messrs. Williams, of Mississippi; Bartlett, of Georgia, and Otey, of Virginia, democrats.

The house then resumed the consideration of the Loud bill relating to second class mail matter. Mr. Bromwell, of Ohio, was the first speaker today. He advocated the passage of the bill.

Mr. Griggs, of Georgia, also supported the bill. He said that two thirds of the members who would vote against it would do so under a misapprehension and because they did not care to take the trouble to meet the objections of constituents, who did not understand the measure.

IN THE SENATE.

Washington, March 21.—Soon after the senate convened today Mr. Turner, of Washington, offered a resolution directing the secretary of war to inform the senate whether any concessions to excavate the gold bearing bed of the sea in the vicinity of Cape Nome, Alaska, or in other Alaskan waters have been made to any individual or corporation or association by the secretary of war or any other war department official and, if so, upon what theory of authority such grant was made.

In response to an inquiry as to the information which had prompted the resolution Mr. Turner said he had been informed by the governor of Alaska, who was now in this city, that the war department had granted exclusive rights to certain persons to mine the bed of the sea near Cape Nome.

"If this is true," he said, "it is a shame, a reproach and a scandal."

The resolution was agreed to.

Mr. Pettigrew offered and secured the passage of a resolution directing the secretary of war to inform the senate what were the qualification of voters in the approaching elections in Cuba, who prescribed the qualifications, the purpose of the election and who would have charge of it.

Mr. Hale called up the measure making appropriations to supply additional urgent deficiencies with the committee amendments thereto, were agreed to and the bill was passed without comment.

Mr. Carter called up his motion to reconsider the vote by which the senate yesterday adopted a resolution providing a messenger to every senator, not a chairman of a standing committee. The motion prevailed and the resolution was referred to the committee on contingent expenses.

A bill to authorize the judges of the district courts of the United States to appoint stenographic reporters and determine the duties and compensation of such reporters was passed.

The bill provides for the appointment of nine court reporters in the United States at a salary of $2,000 each, extra pay being provided for extra manuscripts of court proceedings supplied.

The bill to provide a civil code for the district of Alaska was then taken up for consideration.

VETERANS WILL CELEBRATE.

April 9, the anniversary of the surrender of Lee to Grant at Appomattox, will be celebrated in Fort Wayne under the auspices of the Union Veteran legion, and a committee of old soldiers is now at work upon a program for that occasion. There will be a musical and literary entertainment of a patriotic order, and a number of brief addresses. It has not yet been determined where the entertainment will be held.

PREPARING TO MEET STRIKE

EMPLOYERS OF MACHINISTS ARE UNITING.

Fear of General Strike Brings Into Combination Many Millions of Capital.

New York, March 1.—In anticipation of an extension to this city of the strike of machinists now in progress in Chicago, Columbus, Ohio, and Paterson, N. J., local manufacturers of machinery are pushing forward the work of perfecting an organization to cope with it when it comes. Plans for such a body were laid some time ago, but the threats recently made by the International Association of Machinists to make the Chicago strike national and call out 100,000 men, in addition to the 6,000 now out in Chicago and the 1,000 in Columbus and Paterson, resulted in an increase of activity among manufacturers here.

As a nucleus for this movement the New York and New Jersey Machinery Manufacturers' association was organized on March 14, with A. B. Sees as president, J. S. Mundy vice president and G. K. Garvin treasurer. From the officers of the association urgent pleas were sent out to manufacturers in this city, Brooklyn, Jersey City and Newark, stating the demands made in Chicago by the strikers.

It was stated by an officer of the association that it would comprise in its membership several hundred manufacturers, representing many millions of capital. Special stress was laid on the demand of the machinists that the present employes who are not union men be discharged and their places filled with union men. "They also demand," said the officer, "that a fixed minimum of wages and a nine hour day be established. Men can be discharged only with the concurrence of the local walking delegates."

According to Delegate George H. Warner, of the International Machinists association, the causes that have led to the strikes of machinists in Chicago will, if the Chicago men win, precipitate strikes in all the large cities of the country, New York included, if the manufacturers do not accede to the demand for a nine hour working day, which began in Chicago, and is to be made everywhere.

"The machinists may not find it necessary to wait for our movement to succeed in Chicago before extending it to other cities, and the nine hour demand may be made in New York and elsewhere before many days."

O'CONNELL IN CLEVELAND.

Cleveland, March 21.—President James O'Connell, of the International Machinists' union, arrived here from Chicago today, and subsequently had a long conference with the officials of the local machinists' union in regard to the proposed strike in this city. A meeting will be held tonight which, it is expected, will be largely attended by both union and non-union machinists. It will then be decided whether a strike will take place. In an interview Mr. O'Connell said:

"No national strike has yet been called, but arrangements are being made for one. In Cleveland the men want so little, that I cannot understand why the employers should prefer to have a strike on their hands."

It is said that 2,500 machinists will go out in this city if a strike is ordered.

Mr. and Mrs. Robert Wheeler, of Chicago, are visiting in the city.

DENY STATEMENT

THAT PHILIPPINE WAR COSTS 1,000 MEN A MONTH.

FIGURES FROM THE RECORDS

FIFTEEN HUNDRED MEN HAVE LOST THEIR LIVES.

MOST DEATHS BY VIOLENCE

REMARKABLE NUMBER HAVE BEEN DROWNED.

Washington, March 21.—War department officials deny the recent published statements that General Otis' campaign is costing upward of 1,000 men every month. According to the official records, since the American occupation of the Philippines, June 1st, 1898, up to February 17th, 1900, the date of the last official compilation, the actual mortality in the army in the Philippines was 65 officers and 1,460 men, a total of 1,525, or at the rate of 74 deaths a month.

More details are contained in the report of Colonel Woodhull, chief surgeon of the Philippine army. His report, however, does not extend beyond the end of the last calendar year. It shows that from the time American troops landed in Manila up to December 1st, 1899, the total number of deaths were 58 officers and 1,263 men. Of this number, 43 officers and 570 men died by violence, and 16 officers and 693 men died of disease.

Most of the deaths by violence occurred in battle. There were, however, 137 deaths from violence outside of actual hostilities.

It is a singular fact that more than one-half of the latter class of deaths were caused by drowning. The total number of wounded without fatal results during the period covered by the report was 1,767.

Surgeon General Sternberg says that many of the alarming statements of disease and death in the Philippines seem to be based on the fact that large details of contract surgeons are being forwarded to the Philippines. The fact of the matter is, he says, that there is no particular increase of the number of medical officers in the Philippines. The contract surgeons now being sent there are simply to take the places of others whose contracts have expired and who are entitled to come home.

He admitted that twenty-four officers of the medical department were on the transport which sailed from San Francisco a few days ago, but explained that they had been gathering at San Francisco for several weeks awaiting transportation under orders issued in the usual routine.

TO MAKE DEMONSTRATION.

Berlin, March 21.—An official agency today gave out a Washington dispatch setting forth that the American warship sent to Taku is intended to participate in an eventual joint naval demonstration should China persist in her refusal to suppress the sects hostile to Christians.

London, March 21.—The foreign office today says there is no truth in the story emanating from Berlin, in regard to an alleged joint naval demonstration should China persist in her refusal to put a stop to the hostilities against Christians in that country.

MEETING SET FOR THURSDAY

TO CONFER REGARDING A UNION STATION.

Representatives of the Railroads Will Meet Commercial Club Directors and City Officers.

This afternoon Secretary Mouning, of the Commercial club, issued a call for a meeting of the directors of the Fort Wayne Commercial club to be held on Thursday evening. The various railroad officials who have signified their willingness to discuss the union depot question have been notified and it is expected they will be present.

District Superintendent Baldwin is coming from Cleveland to represent the Lake Shore, Superintendent McKim will speak for the Pennsylvania, Superintendent C. D. Gorham will appear for the Nickel Plate. The Wabash, Lake Erie and Findlay representatives have not yet reported.

Besides the directors of the Commercial club and the railroad officials, an invitation has been extended to City Attorney Shambaugh, Comptroller Berghoff, the board of public works and the council committee to participate in the deliberations.

The matter of properly advertising Fort Wayne will also come up at the meeting tomorrow evening.

STEEL MAGNATES CONFER.

New York, March 21.—A special to the World from Atlantic City says: Andrew Carnegie, Henry Phipps, A. M. Moreland, F. T. F. Lovejoy and Charles M. Schwab are here and they are constantly in one another's company. Mr. Phipps, Mr. Moreland and Mr. Lovejoy, since the Carnegie-Frick litigation started, have been supposed to be on the side of Mr. Frick. The steel magnates are almost constantly together, but not one of them can be induced to say what effect this friendship and intimacy will have upon the suits now pending in the Pittsburg courts. A report is current that a truce has been established between Messrs. Carnegie and Frick.

GOEBEL'S ASSASSIN A NEGRO

GOLDEN SAID TO HAVE MADE A CONFESSION.

Papers Found Showing That the Man Was in Frankfort at the Time of the Murder.

Louisville, Ky., March 21.—The stories growing out of the conference between Sergt. F. Wharton Golden, of the Barboursville company of state militia, and the attorneys who are managing the investigation of the assassination of Governor Goebel have caused a sensation throughout the state. Golden will be placed on the stand by the prosecution in the trial of the persons already arrested for the alleged complicity in the assassination, but information as to the exact nature of the testimony he is expected to give is lacking. Attorneys Campbell and Polsgrove naturally decline to discuss the matter, and Golden himself will say nothing.

Specials from Winchester say Golden is still at that place in company with his attorney. The two spend most of the time about the hotel. They see all callers, however, and talk freely on all subjects except that of Golden's reported confession.

"I will do all I can for my friends all the time," Golden is reported as saying, "but I must first be true to myself. When the time comes I will tell all I know. Whatever else may be said about me, I don't think I can be accused of being a liar, a coward or a democrat, and I want it distinctly understood that I am not here under guard."

MURDERER A NEGRO.

The story is published that Golden has divulged to the attorneys the name of the man who fired the shots that killed Goovernor Goebel. The person mentioned is a mulatto who formerly lived at Winchester, was prominent in the French-Eversole feud, and is known as a dead shot. This man is now supposed to be in the wilds of one of the mountain countries. Evidence that he was in Frankfort at the time of the assassination was found among papers taken from W. H. Culton, a clerk in the auditor's office when the latter was arrested a week or so ago on a warrant charging him with being an accessory to the murder. Among these papers was receipts for board bills amounting to about $300, incurred by eighteen men who were in Frankfort for some time before and at the time Govenor Goebel was shot. In one of these receipts the name of the mulatto mentioned is given. The receipt in this case is for money received from John Perkins by Bettina Pittman for the board of three men. Perkins is a porter about the state house.

WENT TO MEET GOLDEN.

Frankfort, Ky., March 21.—County Prosecutor Polsgrove went to Lexington today, where he is to meet Sergeant F. W. Golden, who is said to be the most important witness for the state in the trials of the suspects held in connection with the Goebel assassination. Ex-Congressman David G. Colson, who is reputed to have urged other suspects to confess and also to have rendered valuable aid to the detectives, is obeying the advice of his lawyers and refused to talk.

Dr. W. E. Ensley is confined to his home with illness.

MADE A DEEP CUT

IN CLAIMS AGAINST ELECTRIC CORPORATION.

REFEREE USED THE KNIFE

MADE A REDUCTION OF MORE THAN $327,000.

ONLY TWO CLAIMS APPEALED

THIS SAVING WILL INCREASE THE DIVIDENDS.

The voluminous records of the bankruptcy action against the old Fort Wayne Electric corporation, comprising more than 300 ordinary record-book pages, represent an immense amount of work on the part of the various attorneys interested, the trustees, the referee and Judge Baker. The record of claims filed compared with the allowances made show a disallowance and diminution of these claims amounting to a total of over $327,300.

This amount has been held by the court to be in excess of legitimate claims against the defunct corporation, and means that other creditors of the institution will receive a proportionately greater per centage of their claims. The claims as originally filed foot up to a total of over $907,000, and each has been heard by Referee Chapin. Notwithstanding the heavy reduction made by Judge Chapin, but two of the claims have been appealed to the higher courts. Of these, one was reversed and the other sustained. A dividend of 20 per cent. has already been paid to creditors, and it is probable a second dividend will be declared later. Judge Baker has just made an allowance of $356.50 to Judge Chapin for special services in the case.

SET FOR HEARING.

The hearing of the petition for final discharge in bankruptcy of James Kannel and Christopher Albright, of Steuben county, has been set for April 10.

WILL COME IN BOOKS.

Postmaster Page has been notified that about May 1 the Fort Wayne postoffice will be supplied with postage stamps of the two-cent denomination in books, convenient to carry in the pocket, interleaved with parafine paper to prevent premature adhesion. There are six stamps on a page. Only three different qualities will be so furnished: One book of twelve 2-cent stamps, one book of twenty-four 2-cent stamps and one book of forty-eight 2-cent stamps, of postage value, twenty-four, forty-eight and ninety-six cents respectively. Each book will be sold at an advance of one cent on the stamp value, to cover the cost of binding.

DR. BOWER CHOSEN.

Dr. G. B. M. Bower was unanimously chosen president of the Allen County Medical socity on Tuesday evening. Dr. Bower succeeds Dr. H. A. Buemling, who will soon leave for Milwaukee and tendered his resignation accordingly. The society promised its hearty co-operation with the committee of ladies who have secured a trained nurse to attend Fort Wayne's needy poor. Dr. G. W. McCaskey, of this city, was endorsed for president of the state medical society, and the county organization will heartily champion his selection to that position. Dr. John H. Carstens, of Detroit, presented a scholarly and exhaustive paper on "Appendicitis," and a very general discussion of his paper followed.

ATTENDED IN A BODY.

Members of the Fort Wayne board of underwriters, which includes every fire insurance agent in the city, attended the funeral services of the late Claude F. Eme, which were held this morning at the Cathedral. The insurance men paid this tribute of respect to the deceased, who was one of the oldest agents in the city. Rev. Father Durham officiated at the funeral services.

The 2-year-old daughter of Mr. and Mrs. John Reul, of West Lewis street, swallowed a moth ball, with which she was playing, this morning. The little one became very ill and a physician was hastily summoned. After working some time he was able to counteract the bad effects of the composition.

THIRTY MEN ARE INJURED

ELEVATOR LOADED WITH MEN PLUNGES DOWNWARD.

The Engine Broke and the Car Dropped Three Stories—None of Injured Will Die.

Chicago, March 21—Thirty persons were injured shortly after 6 o'clock this morning by the falling of the freight elevator in the rear of the building at 126 Market street, where the victims of the accident were employed by the Blakeley Printing company.

It is thought none of the injured will die, although several of them were badly hurt. Patrol wagons, ambulances and other vehicles were called and the injured taken to either their homes or to hospitals. Following are the most seriously injured:

George Hale, Albert Christian, Joseph Hoffman, Albert Seifert, Ernest Heine, James Delaney, Walter Hartwig, Patrick Foley, Edward Levi, James Thomas, George Weiks, John Rambo, George Hall, Edward Laville, Edward Wolfe, Edward King, Louis Stanton, George Compton.

The men had worked all night in the printing shop and had crowded into the elevator at the top floor. The big elevator moved slowly down the shaft till the third floor was reached. Then, according to Harry Olson, who had taken hold of the rope which set the machine going, something snapped, and an instant later the lift, filled with its mass of agonized victims, crashed into the basement.

"First aid to the injured" work was done in a neighborhood building into which the victims were taken, but it was some time before a sufficient number of ambulances were secured to remove the injured to their homes or, in the more serious cases, to the hospitals.

The accident was caused by the breaking of the engine in the basement.

DISCOVERED A FIRE.

Late Tuesday night Officer Smith discovered a fire in the bicycle store at 170 Calhoun street. Breaking in the door, the officer extinguished the flames with the assistance of several other gentlemen who happened to be passing. The ceiling had caught fire from a stove pipe which passed through it and the damage was only nominal.

DEGREE OF HONOR NO. 2.

URGES FRENCH TREATY.

New York, March 21.—A special to the Herald from Washington says: An important document, presenting strong reasons for the ratification of the French reciprocity treaty, has been compiled by Senator Davis, chairman of the committee on foreign relations, and adopted by that committee as a report in favor of the pending instrument. It embraces a vast amount of information relative to the commercial relations between the United States and France, including detailed statements compiled by the government actuary, showing the proposed tariff rate on all articles embodied in the treaty; also a comparison of the actual concessions granted by the United States and by France under its provisions.

PRICE OF COAL ADVANCED.

Cleveland, Ohio, March 21.—As a result of the recent increase of wages granted the Massillon miners, the Massillon District Coal operator's association has decided to raise the price of coal twenty-five cents per ton. The increase in the wages of the miners, it is stated, amounts to 20 per cent. The advance in the price of coal is to take effect April 1st.

ECHOES OF THE BIG NESTEL WILL TRIAL.

Defense Claim Answers to Interrogatories Were Not Unfavorable to Them—Notes.

The Sentinel is not disposed to take sides regarding the merits of cases pending in the courts, and in referring yesterday to the interrogatories informally answered in the Nestel case, acted on information which may not have been altogether impartial. A different version since given The Sentinel is to the opposite of what was stated yesterday. It is to the effect that the answers were largely in favor of the defendants. As there was no general verdict the answers are, however, in any event, as heretofore stated, inoperative.

NOTES.

In the superior court today Judge Vesey rendered judgment for $451 in favor of plaintiff in the case of the Keeley Brewing Co. vs. Moses Rosenthal.

The case of August Kaada vs. the Wabash railway still occupies the time of Judge O'Rourke and the circuit court jury.

Judge O'Rourke has issued a certificate of naturalization for Frederick Hirsch.

COMMITTEE IS HARD AT WORK

CANVASS TO BE SYSTEMATIC AND THOROUGH.

More than one-fourth of the $10,000 which the Commercial club and the citizen's committee hopes to raise for the purchase of a site for the new Withington factory in Fort Wayne has been raised in considerably less than two days. The work has been carefully planned and the canvass is being conducted along systematic lines, and every member of the committee feels greatly encouraged at the outlook.

It is believed that there will be little difficulty in raising a sum sufficient not only to provide a ten-acre tract for the Withington factory, but to form the nucleus for a permanent fund to be used in locating manufacturing industries in this city. Before beginning the work of soliciting today, the members of the committee held a conference at the office of Chairman P. A. Randall to lay additional plans for the canvass, and up to noon today the following subscriptions had been reported:

GLASSCOCK TO BE MANAGER

AN AGREEMENT REACHED WITH FORT WAYNE CLUB.

Will Leave for Wheeling Tomorrow and Return the First Week in April.

Jack Glasscock will not accept the offer of the Sioux City base ball club, but will remain in Fort Wayne and manage the local club another season. Tuesday evening Glasscock held a conference with Director Mautner and Secretary Hubbard and satisfactory arrangements were made between them for the coming season. When the conference adjourned it had been decided that Glasscock would remain in Fort Wayne. He was given a slight increase in salary, not as much as Sioux City offered, but enough to convince Glasscock that it was best for him to remain in the Summit City. He is perfectly satisfied with the new arrangement and will immediately notify President Beall, of the Sioux City club, of his intention to remain in Fort Wayne.

While in the city Glasscock has talked over prospects with Mr. Mautner and it has been decided that Fort Wayne needs two first-class pitchers and Manager Glasscock will immediately begin negotiations for the signing of two twirlers who will be a credit to the team. It is believed now that Bergen will sign and do the bulk of the catching this season. Glasscock has the names of two first-class young outfielders who may also be signed. He will go back to Wheeling tomorrow and return to Fort Wayne the first week in April.

Flood will be on second base. Mr. Mautner received a letter from President Nick Young this morning and the big league president says that he has written to Buffalo, and if matters are in the status named by Mr. Mautner Flood will certainly play in Fort Wayne.

NOTES.

The directors of the Inter-State league will hold a meeting at the Hollanden hotel, in Cleveland, next Friday to decide on a schedule. Secretary Hubbard will represent Fort Wayne.

"Biddy" McPhee has retired from the diamond after eighteen consecutive years' playing with the Cincinnati team. During all these years McPhee has been recognized as one of the greatest basemen in the game. Even now he might continue to draw the limit of salary and not play a game, but is too honorable to do this. "Fans" all over the country will regret to hear of McPhee's retirement.

BOYS ARE MISSING.

Wallace Dinnerman and Clarence Enslen, aged respectively twelve and thirteen years, left their homes on Spy Run avenue Tuesday and have not been seen by their parents since. No word has been received from them and the police have been requested to notify the parents if the boys are about the city any place. They have friends in Pleasant Lake and it is believed they may have gone there.

DEATH'S RECORD OF THE DAY

WILLIAM BLANEY EXPIRED AT ST. JOSEPH HOSPITAL.

Son of Mr. and Mrs. Charles Morrow Yields to Consumption—Other Mortuary Matters.

William Blaney, who for the past two years has been a patient at St. Joseph hospital, expired at that institution at 9 o'clock this morning from consumption, at the age of twenty-three years. The young man came to Fort Wayne from Hartford City. He was a native of England, and the only known relative is a brother, who is the United States army.

The funeral services will be held from the hospital chapel Friday morning at 8 o'clock. Interment at the Catholic cemetery.

GUNDER.

At 8 o'clock Tuesday evening Charles Gunder died at his home, 196 Wells street, from consumption, from which he has been a sufferer for about one year. Mr. Gunder was twenty-nine years of age, and until about one year ago was a farmer in Washington township, but removed to this city when his health began failing. Surviving him are the widow and one child, besides two brothers, Henry and Emmanuel Gunder, and one sister, Mrs. Mary E. Gloyd, all of Fort Wayne.

Funeral services will be held from the residence Thursday afternoon at 2 o'clock, Rev. Henson officiating.

HAMMOND.

William Hammond, an aged resident of Madison township, died on Tuesday at the home of his adopted son, William Wybourn, after a prolonged illness. Mr. Hammond was a native of England, emigrating to America in 1852, and for half a century has been a resident of Allen county. His aged wife died last October. Mr. Hammond was widely known and highly esteemed, and his death will be mourned by a large circle of friends and acquaintances.

The funeral services will be held at Marquardt's chapel on Thursday, interment at the I. O. O. F. cemetery at New Haven.

MORROW.

J. Carl Morrow, son of Mr. and Mrs. Charles Morrow, of 13 Wall street, died at 4 o'clock this morning from consumption, at the age of 17 years.

The funeral announcement will be made later.

CONDITION IS CRITICAL.

At Hope hospital this morning Christian Boseker, the well known contractor, submitted to an operation for sarcoma of the spleen, performed by Drs. C. B. and G. C. Stemen. Mr. Boseker has been seriously ill for some time and the operation was performed as offering the only hope for his recovery. Late this afternoon the patient's conditon is reported as extremely critical.

"Housework is hard work without Gold Dust"

To Clean Matting

Few things can be used to clean matting; salt and soda have been used, but experience has taught that the best way is to have the matting thoroughly swept, and then go over it with a solution of warm water with

Gold Dust Washing Powder

dissolved in it; it is best to use a woolen cloth; a tablespoonful of Gold Dust Washing Powder to a quart of water is the proportion; wring the cloth almost dry and rub quickly, but the moment the water gets dirty, change it for fresh; then follow the wet cloth with a dry one. This will clean it perfectly.

Gen. Lew Wallace seems likely to achieve distinction as the "original" anti-McKinley republican.

Hon. J. Sterling Morton is evidently oblivious to what is going on about him out in his own state of Nebraska.

President McKinley's plan to compromise the Porto Rican business on a yet smaller rate of duty than has been proposed will not be a bit more tolerable. A wrong is a wrong.

The way the Nebraska democracy rallies around William J. Bryan proves that he is not only that state's favorite son, but that the existence of no other son is or will be thought of. Mr. Bryan is Nebraska so far as politics goes.

Russia has dropped another day behind the rest of the procession. Thanks to her foolish determination to stick to the Julian calendar, according to which this is a leap year, she has just lost another day, making her thirteen days later than the other nations of the world. But probably the old minds of that country will raise no serious objections.

Kipling has written a new verse for "The Wearing of the Green," inspired of course by the rather extraordinary events of Saturday. But Kipling's verse is not likely to be added to the repertory of the genuine Irishman unless the author becomes more popular with Hibernians. At the pro-Boer meeting in New York last week the name of Kipling was hissed by the Irishmen present more heartily and more enthusiastically than almost any other.

Spain has been revising her tariff list with the result that a duty of $13 will hereafter be placed upon every American typewriter imported. Of course this duty is not wholly prohibitive, but it certainly will not serve to stimulate trade in typewriters in the Spanish cities. Spain is no longer a colonial power, she is no longer fighting revolutions and her generals are no longer devoting most of their time to the preparation of optimistic reports. Therefore is not so much need of typewriters as there used to be.

Great Britain has no cause to feel proud of its refusal to exchange prisoners with the Boers. It is true that this may be good judgment from a military standpoint, inasmuch as the Boers require the services of every able-bodied man they can secure, while the British are not embarrassed by lack of soldiers, but nevertheless the refusal is unjust and unfair to those of her majesty's soldiers who have had the misfortune to fall into the hands of the enemy. The life of a prisoner of war is never a very happy one, and the unfortunates who have been sojourning at the Pretoria race track for the last few months have good reasons to complain because of the ingratitude of their country.

POWER OF THE STATE.

The decision of the supreme court—Justice Harlan dissenting—in the case of the Waters-Pierce Oil company vs. the State of Texas is conclusive concerning the power of states to prevent the trust combinations doing business in restraint of trade. The case arose under the Texas "anti-trust" law, which prohibits the combinations known as trusts from transacting business within the state. The Texas authorities adjudged the Waters-Pierce company to be a component part of the Standard oil combination and revoked its right to do business in the state. The oil company began action in the United States courts, making the plea that a contract had been made with the state of Texas to permit the company to do business within its borders prior to the enactment of the law, and claiming the state had no right to revoke that contract.

The supreme court opinion holds that the permit to the company to do business in Texas was based upon its acceptance of the state regulations applying to foreign corporations; that the new law, amendatory of those regulations, became a part of the acceptance of the company and that consequently the new law was not in violation of the contract with the company.

This decision is important in more aspects than one. The first thought, of course, is that it prepares the way for the control of the gigantic combinations which have recently become so numerous. But it is not less significant in its affirmation of the principle that all corporations which accept the provisions of the state constitutions and statutes are amenable to all the laws of the commonwealth, whether enacted prior to such acceptance or afterward.

WAR TAX REPEAL.

A vigorous movement is made by the Chicago Tribune in favor of having this congress repeal that portion of the war revenue act which imposes the stamp taxes. The stamp taxes are a tax on business transactions. Four years ago the representation was common that the income tax was a tax on business activity. It was rather a tax on prosperity. But the stamp taxes are taxes on the transactions where they are imposed, whether they are profitable or not.

It is estimated that of the surplus of $12,000,000 for the past eight and a half months about $28,000,000 comes from the stamps required on documents and proprietary merchandise. The deduction is that the taxation is unnecessary, since without it there will still be a surplus, and that the vexatious nature of this particular tax calls for its abolition.

There is another reason hardly less cogent. If the surplus could be applied to the reduction of interest-bearing debt there would be some excuse for keeping up the taxation to produce it. But the financial act just enacted decides that there shall be no retirement of the bonds for the next twenty-five years. Therefore, the accumulation of a surplus can have no purpose except to offer a premium on the activity of treasury raiders, in urging various schemes to dispose of the surplus, and relieve the stringency in the money market as well as in their pockets. Certainly business ought not to be taxed for the express benefit of the surplus spenders.

AN IMPORTANT MATTER.

Soliciting committees are out, taking up subscriptions to secure a large manufacturing plant for Fort Wayne, which promises to employ from 300 to 500 men. All owners of real estate, and those who have business blocks and houses to rent, should be interested in this and give liberally to a project, which benefits them fully as much as the merchants. Without factories and shops here their property holdings would not be worth much, but with more factories and shops here, real estate would be more valuable; houses and stores would bring higher rentals, and there would be less of them empty, as many are now. Other cities offer big inducements to secure factories and shops, and if we want Fort Wayne to grow and its people to prosper, we must do likewise. For many years we have been at a standstill, in fact going a little behind. Now if Fort Wayne people are alive to their own interests the must rouse up and secure substantial industries of this kind.

A word or so also on behalf of the soliciting committees. These men are giving their time and attention to this matter for the general good of Fort Wayne, they frequently have to use a great deal of persuasive power to get people to subscribe. Now this should not be the case. Let everyone, therefore, subscribe liberally and cheerfully to a project which is to benefit all.

MUST GO TO PRISON AGAIN

FORMER FORT WAYNE GIRL HAS MORE TROUBLE.

Mamie Starr Ray Convicted of Stealing at Denver, Col.—Says She is Only Nineteen.

Mamie Starr Ray, who, when a little girl, resided in Fort Wayne, is again in trouble and will probably be forced to spend a second term in prison. The following special telegram from Denver, Col., tells the story:

"Madeline La Roy Langley Ray Thompson was today found guilty of stealing $75 from W. J. Woulfe. She said that he had given her the money. The penalty is from one to ten years in the penitentiary. On the stand Starr W. Ray testified that he was her husband and that under the name of Mamie Starr she had been sentenced to the Joliet (Ill.) penitentiary for life for poisoning Mrs. Belle Newland, of Chicago, in 1890. She was a servant in Newland's family and it is said was smitten with her employer. In 1897 her sentence was commuted to twelve years and she was released in the following year. She denied Ray's story entirely, asserting that she had been in a convent in Atlanta, Ga., until a year ago, and that she was only nineteen years old. Her husband says she is thirty-five. The police proved that the convent in which she says she was does not exist, and she offers no further explanation. She married a former deputy sheriff, Thompson, a few weeks before her arrest."

COLONIAL EMPIRE.

LEW WALLACE SAYS THAT IS M'KINLEY'S PLAN.

THE AUTHOR'S STRONG VIEWS

HE WOULD HAVE AMENDMENT TO CONSTITUTION.

MAKES CONSENT OF PEOPLE

OF UNITED STATES ESSENTIAL TO EXPANSION.

To the Editor of the Indianapolis Press:—The education of the people lately so generously undertaken by the majority of republican senators in Washington is befitting me. The month during which their school was to last is not half out; yet I am able to see what is the matter with them. It is that President McKinley wants to convert the Philippines and Porto Rico into colonies, and govern them personally, and, though they know as well as the president that there is no grant of power in the constitution to establish a colonial system, they are determined to help him to his wish. This obliquity of vision, obsequiousness, or whatever it may be called, is strange; and I confess not being far enough advanced in the course of instruction submitted to me, in common with the people generally to decide whether it is due to the patronage which the president always skillfully keeps in sight and smell of congressional visitors, or to the Caesarian meat they are in the habit of eating at their 5 o'clock dinners.

Still, as it seems to me, last opening my eyes under the able tuition, the thing strangest of the whole Porto Rican affair is that no senator, democrat or republican, has made a sign suggestive of preparation for the expansions in delivery waiting at the door. They know there is a party booming the annexation of Cuba; they know the administration is negotiating with Denmark for the purchase of St. Thomas and St. Croix, islands just east of Porto Rico, for which there is a willingness to give $3,000,000; they know it is in serious proposal to annex Nicaragua and Costa Rica, the argument being that those revolutionary vortices are in some way essential to the canal which Secretary Hay would have us build for the accommodation of the world, meaning Great Britain; they know that ever since General Grant's day presidents have had itching palms for Santo Domingo, and they ought to know, if they do not, that the expansion fever is in the blood of the present executive, making it reasonably sure that there will be no stop in the business until, if only to round out and increase the splendor of the American colonial system, now in incipiency, the whole of the West Indies are ours. Where we cannot conquer we can buy. Yet, withal, they seem incapable of anticipation—incapable of even formulating a civil government for Porto Rico. Military government is so simple, so easy, so economical of their lordly labor, so agreeable to the president! If there is a doubt of their right to erect colonies, why not take time to settle it? If there is a doubt that the constitution, by process of self-extension, covers new domain the instant of the perfection of our title, why not enact something which shall have at least the merit of certainty in that most serious particular? A lapse of law is intolerable to good government.

Let me hope the public will not smile at my disposition to lend the very honorable, but eccentric, senators a hand to help them out of the hole they are in. They are going far aside to educate me. They are making speeches to that end; indeed, if we may believe Mr. Fairbanks, they have decided to give me and the other simple-minded folk of the country a month of speeches. Can disinterestedness go further? And shall I not show them some gratitude? Were one of their seats mine, I would offer the following:

—Article XVI.—

Section 1. The United States shall not in any manner acquire, hold, maintain, provide for or exercise jurisdiction or sovereignty over any island, territory or country now foreign, except with the consent of the people of the United States first had.

Sec. 2. In cases of territorial expansion hereafter proposed the will of the people of the United States, required by the foregoing section, shall be determinable at elections, to be provided by congress, and in every instance the president shall proclaim the result; whereupon, if there be a majority for the proposition, the constitution shall, from the day of the proclamation, extend to the island, territory or country admitted, and to its inhabitants.

Undoubtedly the senators will understand the amendment. Along with their other superiorities, they have an intuition of such high-wrought microscopic power as to magnify effects and subject them to perfect knowledge and appreciation at sight. My fellow-students, the common people, however, not so divinely possessed, may think well of a remark or two in explanation of the proposition.

First—A constitutional amendment is best, because, once adopted, it is forever out of reach of the meddlesome.

Second—The Philippines and Porto Rico are not within the application, for treaties are of the supreme law high up alongside the constitution itself.

Third—Future acquirements of territory are dependent upon the people—something that should be welcome to the president and congress, because of the relief it would bring them from responsibility. Nor did the fathers forget this principle, as witness the half-buried, long-forgotten little clause at the tail of article X of the constitution: "The powers not delegated to the United States by the constitution, nor prohibited by it to the states, are reserved to the states respectively, and to the people."

Fourth—The old doctrine of consent of the governed gives place to a new one. Ours are the government, the citizenship, the personal liberty, the prosperity, the power, the flag; therefore, the right to say whom we will let in.

Fifth—The definition of how and when the constitution is to cover territory newly acquired is a denial of colonies and a bar to imperialism.

Sixth—If the constitution is good enough for us, it ought to be good enough for strangers seeking our citizenship.

The amendment is, of course, but a suggestion for general consideration and to show our noble educators how we are progressing; at the same time it is commended especially to republicans and republican conventions. The masses of the party are innocent of imperialism, and it is not their intention to establish a colonial plaything for the present executive or for executives to come; none the less, they will have shortly to answer both those charges. Lew Wallace.

Crawfordsville, March 19, 1900.

POLICE COURT.

There were two drunks and a train climber in police court this morning. Louis Friday accumulated a "jag" and abused his family Tuesday night and was arrested. The mayor sent him to jail for twenty-one days. Joseph Miller, who is only a boy, was sent over for sixteen days. Frank Graham, a train climber arrested by Detective Fuschober, was released and ordered to leave the city.

Misses Della and Bertha Perry entertained a merry company of friends Tuesday evening at their home, 97 East Hugh street.

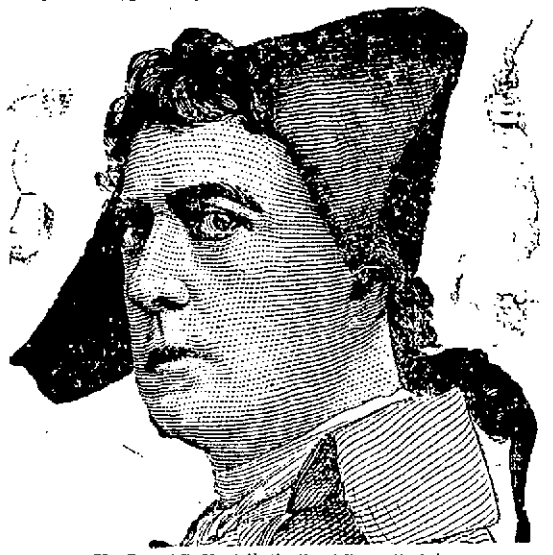
NERVES DESTROYED BY CATARRH.



Mr. Robert B. Mantell, the Great Romantic Actor.

Dr. Hartman, Columbus, Ohio:

Dear Sir—The bottle of Peru-na at hand. It is splendid and most invigorating; refreshing to the nerves and brain. It is one of the best tonics I have ever used. It makes me feel like a new man. Yours sincerely, R. B. Mantell.

Catarrh is one of the ways in which a depressed condition of the nervous system shows itself. Catarrhal people are soon made nervous. Any remedy to effect a radical cure of chronic catarrh must operate directly through the nerves, invigorating the mucous circulation.

Mrs. C. C. Filler, of 1312 South Fourth street, Columbus, O., writes: "For ten or fifteen years I have been subject to nervous dyspepsia. I would have spells of quivering in my stomach, with smothering feelings. I was suffering from what is called nervous prostration. I consulted several physicians, who treated me without doing me any good. I had almost given up in despair when I heard of Peru-na. I found it an immediate relief to all my disagreeable symptoms." Dr. Hartman's latest book sent free. Address Columbus, Ohio.

THE HUMAN SIDE

SALVATION AS MEN MAY LAY HOLD OF IT.

STORY OF BLIND BARTIMEUS

IMPRESSIVE SERMON BY REV. DR. WELLS.

At Westminster church on Tuesday evening Rev. Dr. Wells preached an excellent sermon on "Salvation From the Human Side," to a good sized audience. Dr. Wells' sermon was Mark x. 47: "Jesus, Thou Son of David, have mercy on me." In part he said:

"The text is the prayer of Bartimeus, the blind beggar who sat by the wayside begging for alms, and he cried out as Jesus passed through Jericho on His way to Jerusalem. If we were to teach that God took a man and fairly forced him into heaven, it would be the means of losing many a soul. There is the divine and the earthly side of the question. God co-operates in the soul of a sinner. He will not do for us what we are able to do for ourselves, and He will not permit us to do things which it is His divine purpose to do. We are looking at salvation tonight from the human side and I present the case of the blind Bartimeus as an example of Christ's healing. You will notice that Bartimeus desired to be healed, and perhaps there was no other desire so strong in his heart. His whole conduct on that occasion showed that he desired above all things to have his sight restored. The second thing in the blind man's case was that he was willing to be healed. His will gave hearty consent. And you, unsaved, should be willing to be healed and have your blind eyes opened by the Lord Jesus Christ, that you may be able to follow His teachings.

"Did you ever notice the difference between desire and willingness? A person with a toothache will suffer extreme pain. He will desire to have the tooth taken out, and he so expresses himself, but when it is suggested that he go to the dentist he is unwilling. Does your will give its assent to receive God? The last bar which must be taken down before Jesus can enter into your soul is the will.

"We find that the third thing Bartimeus did was to call to Jesus for help. 'Jesus, Thou Son of David, have mercy on me!' He did not make the mistake of doubting; he called to Jesus for help at once. You must call on Jesus. He is the only One who can do you good. But that is the last thing a sinner will do. He will go everywhere before he will go to Jesus.

"Once, in the far west, an Indian attended a revival meeting, and, though ignorant to the last degree, he comprehended that he must give something, in order to get salvation. Going far into the woods the Indian chose a fallen tree as an altar, and thinking that he must make a sacrifice, he laid his hatchet upon his altar, thinking in that way to get peace. The desired peace did not come, and thinking greater sacrifice was necessary, he laid his rifle upon the altar, but still no peace came to him. Believing that a still greater sacrifice was necessary, he laid his most treasured possession, his blanket, upon the altar, and yet the desired peace did not come. Finally he cast himself upon the log, crying, 'Jesus, take the poor soul and body of this poor Indian,' and the load was at once lifted from his heart and a great peace came to his soul. You must do what that Indian did—give yourself to God.

"Some may ask, 'How can I give my soul to Jesus?' You have but to say, 'Jesus, I give myself to Thee,' and that is all. It is not necessary to be on your knees in formal prayer when you say it. It is but the expressed desire of the soul. Having accepted Jesus, you must live as He would have you live and follow His teachings. That is the way the king or the beggar must do to come to Christ.

"A mistaken doctrine often taught is that in order to gain salvation it is but necessary to throw off your outward sins and follow in the footsteps of Christ. If you have not surrendered your soul to Christ and if you are not clean in heart, you will not get salvation.

"A fourth thing about Bartimeus—he had to meet obstacles. He was blind and did not know which way to go. The people about him impeded his progress and cried to him to hold his peace. Those about him scoffed at him. Many a man in the world today would break from satan and come out boldly on the side of Christ if it were not for the world, which would scoff at him. We are told that Bartimeus cast off his filthy garment and came to Jesus. So should the unsaved, with a filthy garment of sin, cast it off and come to Christ. Bartimeus was desperately in earnest. He leaped from his seat when he heard it was Jesus and came to Him, despite the discouragements of those about him. We can almost see the poor blind creature, at the feet of Jesus, with those sightless orbs upturned to His face, imploringly crying out, 'Jesus, Thou Son of David, have mercy on me.' So it is with the Christian—he must cast himself at the feet of Jesus and accept him unquestioning as the Savior."

The subject of the sermon this evening at 7:30 will be "Salvation From the Divine Side."

FORT WAYNE BOY IS INJURED

PAINFUL ACCIDENT AT FORT BARRANCAS, FLA.

Ralph Curtis Touches a Live Electric Wire With Serious Results —He Will Recover.

Ralph Curtis, of this city, is in the post hospital at Fort Barrancas, Fla., suffering from severe injuries received nearly a week ago by accidentally coming in contact with a live electric wire.

Mr. Curtis is assistant engineer at Fort Barrancas, and is a member of battery L, First artillery. The accident occurred at the mortar battery while Curtis was running a dynamo In charging some storage batteries Curtis came in contact with a live wire. The force of the current knocked him down, rendering him unconscious, breaking two ribs, severely straining his back and producing some internal injuries.

Comrades carried Curtis to the post hospital, but it was three hours before he regained consciousness. He now says he will be all right in a few weeks. Curtis has been quite unlucky, as he sustained a broken arm from the explosion of a magazine in the post on June 15 last. Mr. Curtis' father resides in Fort Wayne.

COLORED BOY A HERO.

New York, March 21.—Six lives were saved by the gallant work of a young colored man during a fire at a flat house in West One Hundred and Thirty-fourth street early today. The man's name is M. S. Anderson. He detected the fire while on his way to work. The flames had gained considerable headway and in a window of the second floor stood a man named Nelson with his six little children hovering about him, their escape having been cut off by the flames. With two passers-by Anderson ran into the building next door and up to the third floor. With his two companions holding his legs Anderson swung head downward and, swaying his body backward and forward, managed to reach the children as they were held up to him by the father. All were taken out safely in this manner. The firemen brought the other occupants of the building down the ladders.

FINDS POT OF GOLD.

New Albany, Ind., March 21.—John Wise, a prominent farmer who lives near Byrnville, Harrison county, unearthed a potful of gold coin on his farm. All of the money bears a date prior to the civil war. Mr. Wise had torn down an old house on his farm, and was removing the foundation preparatory to cultivating the ground. He refuses to make public the entire amount, but a neighbor who was present is authority for the statement that it is in the thousands of dollars.

RURAL DELIVERY AGENTS.

Indianapolis, March 21.— A number of special agents of the rural mail service from the various states of the west met in this city yesterday with General Superintendent S. M. Dice to talk over the conditions of the service, its improvement, and the adoption of a uniform plan for carrying on the details. A number of the districts will be rearranged, and it is understood that a good many changes will be made among the agents. The agents say that in the west there is a great clamor among the country people for free rural delivery. Hundreds of petitions for routes have been sent to Superintendent Dice. There are petitions from every county in Indiana. Routes will soon be in operation from Shelbyville, Anderson, Fairmount, Danville, Wabash, Elkhart, Albion and Logansport. The conference of the agents with Superintendent Dice will be continued until this afternoon.

NOTES REDEEMED IN GOLD.

New York, March 21—The treasury statement of March 17, received by local bankers, reports the first redemption of the United States notes in gold since the passage of the currency law. The amount redeemed was $7,661. The payment was not made out of the redemption fund of $150,000,000, but out of the gold in the general fund. It is understood that it will be the policy of the treasury to make all redemptions out of the general fund, so long as the gold therein lasts.

A CARD FROM MR. ROY.

Mr. Editor—On reaching the city yesterday, I learned of a rumor that I had withdrawn from the race for commissioner from the Second district. The report is entirely without foundation. I am a candidate for commissioner, and if I am to judge by the encouragement I have received, I feel confident of receiving the nomination.

Yours truly,
FLORENTINE ROY,

Change of Life.

Concordia, Kans., Feb. 28, 1899.

I think it my duty to write you about myself. I am 44 years old, and was very sick last summer from the "Change of Life." Two of the best doctors in Grand Island, Neb., after treating me, gave me up to die. As a last resort I finally tried Wine of Cardui. I am happy to say it helped me from the first dose. After using it awhile, I was in better health than for many years. Another spell has lately come on me, and I sent down town last night for a bottle of Wine of Cardui again. After taking it a few hours I am very much better to-day. It is a pleasure to me to tell others about this wonderful medicine. Mrs. M. W. RANDOLPH.

McELREE'S Wine of Cardui

This functional change which comes to a woman makes the period between 40 and 50 one of the most critical in her life. If the "Change of Life" is passed safely, she may expect to live to a happy old age. When proper treatment is not secured at this time few women are ever really well again. They quickly become nervous, "fidgety," unlovely old creatures—no comfort to themselves or their families. There is nothing like Wine of Cardui to help women over this dangerous period. Those who take it when the first menstrual irregularity gives warning of the approaching change have a peaceful long life as a reward. They will grow old gracefully and enjoy life to the end. If you are near the time when you can expect the "Change of Life," fortify yourself by getting a $1.00 bottle of Wine of Cardui at your nearest drug store to-day. It relieves every sort of "female trouble."

DR. S. BALL.

Dr. Rice's free offer. An elderly and retired physician, Dr. S. Ball, of Marion, Ala., is one of the hundreds attracted to this generous announcement and as a result is now completely cured of a bad rupture which was very hard to hold. Although 72 years of age he had the courage and determination to try this new and novel method and now he lives in peace, contentment and security. Dr. Ball looks back to the old days of crude methods and in comparison hails the wonderful method of Dr. Rice as a marvelous God-send to the present generations. By all means write at once to Dr. W. S. Rice, 510 S. Main St., Adams, N. Y., and he will send you a free trial of his remarkable home cure for rupture. There is no pain, danger, operation or an hour's loss of time and by starting now you will be sound and well by early spring. wed&sat A30

SHE'S GOT CHEEK

AND CHEEK HAS SAVED HIS BACON.

MUCH AGED COUPLE ELOPES

GROOM IS EIGHTY-FOUR AND BRIDE IS SEVENTY-SIX.

AN OLD PRACTITIONER DIES

GENERAL NEWS GATHERED IN THE STATE.

Elwood, Ind., March 21.—Madison county has furnished her share of eloping couples to Covington, Ky., where lax marriage laws enable those under age to become man and wife, but the two persons who left this city yesterday on that mission make a new record. They were Louis E. Cheek, aged 84, and Mrs. Margaret Bacon, aged 76. The reason for their trip to Covington was the opposition of the prospective bride's children. Mr. Cheek is so infirm that he is compelled to use both a crutch and a cane, and Mrs. Bacon looks fully twenty years his junior. They are among Elwood's best known old residents and were as happy as a youth of 20 and a maid of 17.

THE EDITORS DIFFER.

Auburn, Ind., March 21.—The Porto Rico tariff bill has been the cause of unlimited trouble, and the newspapers have had their share. M. E. Smith, editor of the Auburn Dispatch, and Mr. Higley, editor of the Butler Record, are partners and own and publish the two papers jointly. In their issue of March 8, there were two articles on the Porto Rico tariff bill. One was on the inside or patent side, and opposed the bill with a good deal of vigor. The other was on the outside, or home page, and was decidedly in favor of the bill. The views were so radically opposite that it made the readers wonder and inquire. This week they explain matters by saying that Editor Higley, of the Record, wrote the inside article favoring the bill, and that Editor Smith, of the Dispatch, wrote the outside article opposing the bill. Notwithstanding they are partners and both running republican papers, the differ widely.

TWENTY YEARS TOWN CLERK.

Wabash, Ind., March 21. "Joe" Cowgill, the town clerk, of North Manchester, this county, this week will be renominated for that office by the republicans, without opposition. He has served almost twenty years, and the singular fact in connection with his incumbency is that he, years ago, in an accident, lost both arms. On the stump, however, of the right arm, is an attachment which grasps a pen, and with this Mr. Cowgill makes as legible record as almost any public official in the state. He is very popular in the community, and can hold the office as long as he lives, if he so desires.

HOPE TO BE DELEGATES.

Elkhart, Ind., March 21.—Among the laymen of the North Indiana Conference who hope to be selected as delegates to the general conference of the Methodist church, to be held in Chicago in May, but who are ethically forbidden from electioneering, are the following: J. L. Cavin, of Ligonier; E. E. Beiger, of Mishawaka; Dr. C. B. Stemen and Dr. William Enslen, of Fort Wayne; Postmaster A. A. Small, of Anderson; Hon. C. A. Potter, of Angola; J. H. Lenhart, of Decatur; L. J. Bunyan, of Richmond, and B. G. Shinn, of Hartford City. The five ministerial and five lay delegates are to be selected at the annual session of the North Indiana Conference in this city April 4 to 10.

THE WILL PROBATED.

Huntington, Ind., March 21.—The jury in the Morell will case returned a verdict admitting it to probate, and this takes about $35,000 from the widow and distributes it among relatives, as contemplated by the testator.

A COMPROMISE REACHED.

Auburn, Ind., March 21.—A compromise has been reached in the $20,000 damage suit by Alva Brandon, of this city, against the Minneapolis Thrashing Machine company. The action was commenced in the United States court, at Indianapolis, and was recently transferred to Fort Wayne. The suit was on account of personal injuries received in an accident.

AGED PRACTITIONER DEAD.

Huntington, Ind., March 21.—Dr. D. S. Lyman, for 50 years a practitioner in this city, died at his home on West State street Monday evening, aged 74 years. Death was due to organic heart trouble and came after almost 6 years' illness, the last four weeks of which were attended by great suffering. He was born in Columbiana county, Ohio, and was educated at Western Reserve university, Cleveland.

In politics he was a republican, for many years serving as chairman of the Huntington county central committee. He was a candidate for representative, opposing John R. Coffroth. Dr. Lyman was a member of the Presbyterian church and a member of the Masonic lodge. A widow, two sons and a daughter survive him. The funeral services will be held Thursday.

CHRISTIAN CONVENTION.

Angola, Ind., March 21.—The First district convention of the Christian churches is in session here with a large attendance from all parts of the district. Those from a distance are G. L. Wharton, of India; Miss Kate V. Johnson, of Japan; B. L. Allen, of Irvington; T. J. Legg and Mrs. Legg, of Logansport; Mrs. Sallie K. Jones, of Corydon; P. J. Rice, of South Bend; S. J. Tomlinson, of Elkhart; Robert Grieve, of Goshen; E. D. Long, of Huntington; G. W. Henry, of Warsaw, and J. E. Pounds, of Cleveland. The Angola church, under the leadership of Elder C. S. Medbury, is entertaining the visitors.

TRUE TO SILVER.

At the regular meeting of the Allen County Bimetallic Union Monday evening, March 19, the following preamble and resolutions were unanimously adopted:

"Whereas, There is a constant disposition to persistently contend that the abandonment of the money question would insure party success, and

"Whereas, The abandonment of the question of our constitutional money would cause a great and serious loss of voters to the democratic party, and

"Whereas, It being the object of the opponents of the free coinage of silver and gold at the present legal ratio of 16 to 1, to get the democratic party to decree its own defeat by abolishing the money question, and

"Whereas, There is almost daily in the press assertions that we should abandon the silver question and make the trusts, or some other question, the chief issue, while the fact is that the money question is the chief cause of the existence of the greatest trust on earth—namely, the money trust, and

"Whereas, It is also claimed that since the Porto Rican tariff bill has been passed by a republican congress, that it would also insure party success by shelving our gallant, honest and invincible leader, the Hon. William Jennings Bryan, and nominating an eastern man, and

"Whereas, The Fort Wayne Bimetallic Union, of Fort Wayne, which was organized in 1896 to further the cause of bimetallism, and which embraces nearly 1,000 members, holds as its members nearly all the prominent democrats, free silver republicans and populists of Allen county, and that nearly every energetic worker and speaker in the county belonging to the three political parties named, are active members of the union, therefore be it

"Resolved, That the Fort Wayne Bimetallic Union, in open public meeting does hereby declare and proclaim that while other new questions have assumed great importance since the Chicago platform was made, and that they will necessarily be discussed, that this union will not consent to the relegating of the free coinage plank of the Chicago platform to the rear, and if prominent gentlemen of other cities in Indiana are endeavoring to accomplish the abandonment of the money question, this union will never consent to such a proposition, and this resolution is to be regarded as notice to the democracy of Indiana that no such policy will be approved by the democracy of Allen county, and

"Be it further resolved, That we do not know of a single prominent democrat, free-silver republican or populist in Allen county who voted for the Hon. William Jennings Bryan in 1896 for the presidency, that has advocated, or will consent to any change in either platform or candidate, and that the Hon. William J. Bryan is the first and only choice of the united forces of Allen county for the nomination for the presidency at Kansas City on Independance day A. D., 1900, and

"Be it further resolved, That a copy of these resolutions be published in the Journal-Gazette and The Sentinel of this city, and The Sentinel, of Indianapolis, and in the National Watchman, of Washington, D. C., and that a copy of the same be forwarded to the chairman of the democratic state central committee, Hon. Parks M. Martin, and

"Be it further resolved, That this union kindly ask and invite all the democratic papers throughout the state to copy and publish these resolutions for the benefit of true democracy and humanity."

THE MARKETS.

Chicago, March 21.—The wheat market was fully active and firm during the forepart of the session today, helped mostly by reports of a foreign demand. May opened a shade under yesterday at 65½@⅝c, sold off to 65⅜c and rose sharply to 66¾c. The bulge met profit-taking, but the market reacted only to the opening, 66⅝c, exhibiting a tendency to keep over that mark. Liverpool was steady and Paris higher, while the weather was regarded as favorable. Local receipts were 30 cars, 1 of contract grade. Minneapolis and Duluth reported 551 cars against 652 last week and 441 a year ago.

The remainder of the session was quiet. May worked a bit further to 66⅜@⅝c, but reacted sharply, the demand felt early apparently having been satisfied. The Argentine news was depressing, but 150,000 bushels were sold for export, and New York reported 20 loads. May sold off on the break to 66⅛c, closing weak, ⅜@½c under yesterday at 66⅛@¼c.

The corn market was inclined to be easy early, as the demand was not great. Receipts here were 284 cars. May opened a shade to ¼c lower at 37½@¾c and steadied at the decline.

The corn market held steady, but trade was dull. There was some demand for the provisions pit for July corn, and country offerings were small, all of which helped. May closed ¼c lower at 37⅛c.

Oats were firm, but inactive. May opened unchanged at 24c and touched 24½c, helped by wheat. Local receipts were 101 cars.

The provision market, depressed at the opening in sympathy with a rather weak hog market, recovered later under the impetus of a good cash trade and covering in ribs and shorts. Packers were buyers of May ribs against cash sales.

May pork opened 5c lower to 7½c higher at $11.35@47½ and touched $11.50.

May lard opened unchanged at $6.05 and sold to $6.07½ and May ribs began the session 2½c down, at $6.07½, but reacted to $6.12½@15.

THE CLOSE.

Prices at the close were as follows:

Wheat—March, 65⅝c; May, 66⅛@¼c; July, 67@67⅛c; Sept., 67⅞@⅞c.

Corn—March, 35⅝c; May, 37¼c; July, 37½@⅝c; Sept., 38@38⅛c.

Oats—March, 23½c; May, 24⅛c; July, 23c.

Pork—March, $11.25; May, $11.35; July, $11.25.

Lard—March, $6.02½; May, $6.07½; July, $6.15.

Ribs—March, $6.15; May, $6.15; July, $6.17½.

Flax—Cash, N. W., $1.05; S. W., $1.05; May, $1.63@1.65; Sept. $1.15½; Oct., $1.11@1.11½.

CHICAGO LIVE STOCK.

Chicago, March 21.—Cattle—Receipts, 16,300, including 1,800 Texans; generally weak, except best. Good to prime steers, $4.75@5.60; poor to medium, $4.00@4.60; stockers and feeders, $3.40@4.75; cows, $3.00@4.25; heifers, $3.25@4.50; canners, $2.25@3.00; bulls, $3.00@4.15; calves, $4.50@6.50; Texas fed steers, $3.75@5.00; Texas bulls $3.20@3.65.

Hogs—Receipts today, 32,000; tomorrow, 28,000; left over, 2,650; 5@10c lower; top, $5.12½; mixed and butchers, $4.85@5.10; good to choice, heavy, $4.95@5.12½; rough, heavy, $4.75@4.87½; light, $4.70@5.00; bulk of sales, $4.95@5.02½.

THE DAY ON WALL STREET.

New York, March 21.—There was continued feverishness in the local traction stocks and specialties at the opening, but otherwise the market was quiet at fractional changes, mostly gains. Third Avenue ran up to $1.02½ and fell back a point, compared with $1.01¼ last night. Brooklyn Transit more than lost a fractional gain at the opening and sugar and Manhattan were also reactionary. A number of the metal stocks showed losses, National steel declining 1⅛c.

The opening reaction in the specialties was met by renewed demand from the shorts and prices quickly rallied. Third Avenue was marked up to $1.12. Buoyancy developed in the other local issues. Metropolitan rising 2¾c, Consolidated Gas and Brooklyn Transit 2c and Manhattan 1¾c.

Heavy realizations in the railroads more than wiped out the opening advances. Dullness developed when the tractions commenced to droop. Third Avenue losing 4 and the others 1 to 2 points.

Support developed in the metal group and there was a vigorous demand for some of the stocks. National steel and federal steel were marked up 1c and 1c each. Purchases of Baltimore and Ohio brought it to 71c and Wheeling and Lake Erie first preferred gained 3¼c. Some of the Pacifics and Reading first preferred rose strongly, but the western group did not respond to any degree outside of Burlington.

Business in the traction was in smaller volume, but at a rally in prices, Manhattan touching the best. The bond market was lower for the active issue.

Third Avenue fell to near $1.05 and Brooklyn Transit, Metropolitan Consolidated Gas and sugar fell below last night's level. Baltimore and Ohio and Missouri Pacific relapsed a sharp fraction. The market became dull with the decline. An upward movement in Baltimore and Ohio took that stock to near 72c. The local traction rallied sharply, but the rest of the list was affected but little.

NEW YORK PRODUCE.

FINANCIAL SHOWING OF INDIA

London, March 21.—The India office has issued its annual financial statement, showing a surplus for 1899-1900 of £2,553,000 and an estimated surplus for 1900-1901 of £160,000,000. The famine expenditure for 1899-1900 worked out at £2,055,000. It is estimated that the famine expenditure for 1900-1901 will be £3,335,000. Except for the famine expenditure the budget is regarded as healthy. The gold standard has been successfully introduced and all demands have been met without borrowing. The surplus of £160,000 is, however, only a paper surplus, for a temporary loan of £500,000 is to be incurred in England, and it is estimated that a temporary loan of three crores of rupees will be necessary for ways and means.

BIDDERS ARE GETTING READY

THERE WILL PROBABLY BE SEVEN SUBMITTED.

The Board is Still Confident the Bids Will be Lower—Municipal Notes.

The bids for the South Wayne sewer will be opened tomorrow evening and indications now are that there will be more bidders than on the previous letting. Already there are in the city Thomas J. Peter, of Chicago; Mr. Erler, of Erler & Peter, Terre Haute; J. A. Wagner, of Detroit, and a representative of the Columbus Construction company. Bob Green, of Appleton, Wis., is expected here this evening and it is hinted that there will be two local bidders. The members of the board of works are confident the bids will be much lower than before.

Thomas J. Peter, who has the contract for constructing the intercepting sewer, confirmed the statement in The Sentinel yesterday that he would begin work on the big sewer next week. He expects his machinery to arrive at any time and it will at once be placed on the right of way of the sewer.

IF YOU HAVE CANCER

Do not submit to an operation or have it burnt out with plasters, but send for our book on Cancer and write our medical department for any information wanted, explaining your case fully.

Cancer is a Blood Disease

Cutting away the sore or removing it with caustic, flesh-destroying plasters, will not cure a disease that has taken possession of the entire blood system. That Cancer is a blood disease is proven by the fact that it may run through several generations; again, when the sore or ulcer has been taken out, it always returns at or near the same place, showing the disease is in the blood.

S. S. S. Does Cure Cancer.

SSS

S. S. S. does cure Cancer, because it goes at it in the right way, forces out the poison, enriches the blood, stops the formation of cancerous cells, and thus makes a complete, permanent cure. We earnestly invite the correspondence of all Cancer sufferers.

FINDLAY MEN HERE

PRESIDENT CHAPMAN IS ONE OF THE PARTY.

MISSION A PROFOUND SECRET

SAID TO BE CONNECTED WITH PROPOSED EXTENSION.

THEY WANT THE BEST LIGHT

PITTSBURG BUYS THE FORT WAYNE ARC LAMPS.

The register at the Wayne hotel this morning contained the following names: George Chapman, New York; Louis Dracht, Cincinnati; Frank Finney and B. W. Fenton, Findlay, Ohio. The visit here at this time of this party has caused much comment, though the gentlemen themselves are very reticent and have kept their mission a profound secret. Mr. Chapman is private secretary to John Jacob Astor and president of the Findlay, Fort Wayne and Western road; Mr. Dracht is a railway builder and contractor of national repute, while Messrs. Finney and Fenton are at the head of the local roster of the Findlay road. It has been hinted that the Findlay, Fort Wayne and Western is to be completed in the near future in accordance with original plans and the visit of the gentlemen named is believed to be in some manner connected with that project. As it is, the Findlay is not a very paying property, but extended east and west upon the surveyed route it would become the shortest and possibly one of the best paying railway properties connecting the middle and western states with the Atlantic seaboard. Further developments in this connection will be awaited with interest. The party spent several hours in looking over the company's property in the city.

WRECK AT ALTOONA.

Altoona, Pa., March 21.—The engine hauling the second section of the Pennsylvania western express, due here at 3:40 o'clock this morning, from some cause unknown left the track at the east end of the Altoona yard and fell over on its side. Engineer Adam Kauffman, aged 45, of Harrisburg, was crushed in his cab and died a few hours afterward in the Altoona hospital. Fireman W. H. Shuman escaped with a slight scalp wound. A freight brakeman named Otto was hurt by flying debris. None of the passengers or trainmen were injured.

A BIG LAMP DEAL.

One hundred and twenty-five arc lamps, designed by General Manager J. J. Wood and built in the Fort Wayne Electric works, will soon illuminate some of the most prominent streets of Pittsburg. They were shipped today and immediately upon their arrival at the Smoky City will be mounted and placed in operation. Pittsburg is the home of the Westinghouse people and the location of their immense electric works. They are extensively engaged in the manufacture of street and other lamps and make goods ones, too. The fact that an order for Fort Wayne lamps has been placed may be taken as evidence of the superiority of the goods built here. It also is evidence that residents of Pittsburg know a good thing when they see it and that they are after the best. Mr. Wood is also furnishing lamps for lighting Chicago and other cities in the United States and Canada.

MR. CALLAWAY EXPLAINS.

Replying to the statement of some of the minority holders of the Nickel Plate that the Vanderbilts are preventing the development of that property, President Callaway, of the New York Central, says: "There is a prevalent and mistaken notion that the Lake Shore dictates either the policy or management of the Nickel Plate. W. K. Vanderbilt is very sensitive about this, and will not permit any interference upon the part of the presidents of other Vanderbilt lines in the affairs of the Nickel Plate. The road is, and always has been, required to shift for itself. It has no interchange of traffic with the New York Central, but is dependent upon its other connections at Buffalo and other points for whatever it can get. Its freight and passenger traffic is of what might be called the cheap order. But with all this, it is fostered as far as possible by the Vanderbilt interest immediately concerned in its affairs. Without this, and left entirely to itself, as an independent property, the Nickel Plate would be valueless and would have great difficulty in maintaining itself. Nevertheless, there is in it the making of a valuable property, and unless some unforseen disaster should interfere, it will become such in time.

"Those who criticise should study the last annual report, which shows that out of the gross earnings $336,140.95 had to be expended for the rental of freight cars in excess of what was received from other roads for the use of the company's equipment. This was in addition to the payment of an installment on what is owed for such new cars as it has been prudent to buy, in view of the time approaching when the improved physical condition will permit of such heavy equipment being used as will increase the earning power of the road, and such equipment will then have to be bought. The thing to do now is to make provision for meeting those conditions. President Cannift's administration has been marked by intelligent and well-directed effort, and he is doing all that a man can, with the means at his command, to improve the property."

INDUSTRIAL NOTES.

Supt. J. W. Hunter, of the Grand Rapids and Indiana road, went to Pittsburg on railway business last night.

W. D. Craig and J. C. Hesslen, Nickel Plate brakemen, are working again, after being on the sick list a few days.

No charge is now made on New York Central trains for the service of coffee demi-tasse in buffet, smoking or observation cars.

John R. Cochran has been elected a director of the Pearin, Pekin and Union railway, succeeding George L. Bradbury, resigned.

One of the St. Paul lines is accused of presenting thirty-four merchants with free tickets to New York, with a view of influencing traffic.

John Handenschild and George W. Petzenger, boilermakers, who had been sick, resumed work this morning in the Pittsburg shops.

A. S. Nichols, J. W. Baillie and William Dryer are sick, and H. Matthewson is off for unknown reasons. They are Pittsburg shopmen.

Nickel Plate Brakeman H. D. McKean was summoned to his old home in Ohio yesterday by a message telling him that his mother was very sick.

Master Mechanic J. D. Harris and Boiler Foreman William Schultz, of the Pennsylvania, at Crestline, were in the city yesterday on railway business.

Nickel Plate Fireman W. Rogerson, who has been sick for several days, went to his home in Chicago yesterday, to remain until he is able to resume work.

Machinist Frank E. Fox resumed his duties in the Pittsburg shops this morning. With his wife he had been enjoying a season of grand opera at Chicago.

Supt. J. B. McKim, of the Pennsylvania, is suffering from an attack of the grip and was confined to his room during the greater portion of yesterday and today.

Engineer and Mrs. Joseph Studer, who were visiting their son, George, at college, returned home yesterday and Mr. Studer resumed his duties on the Nickel Plate.

Eastbound shipments last week out of Chicago amounted to 150,519 tons, against 124,300 tons the preceding week and 141,683 tons the corresponding week of last year.

Mrs. Charles Souder, wife of the Nickel Plate fireman, is improving and her husband, who had been off duty a week on account of her sickness, reported for work yesterday.

Fred Tegtmeyer, who operates one of the machines in the Pittsburg boiler shop, is kept from his work by the illness of his wife, whose condition yesterday was quite serious.

Agent C. H. Newton was able to get down to his office this morning and spent most of the day there though he still suffers from the effects of the illness which confined him to bed a few days.

According to the railroad Gazette, train accidents in January include 108 collisions, 145 derailments and nine other accidents, a total of 262, in which thirty-one persons were killed and 150 injured.

J. W. Sunderland, janitor at the Pittsburg depot, is at Richmond, Ind., under treatment for an affection of the eyes and will be there about a week. Gus Rogge is attending to the duties of janitor during Mr. Sunderland's absence.

Westbound trains had difficulty in making schedule time yesterday and the preceding day, owing to the heavy westerly gale which prevailed in this territory. No. 3, the Nickel Plate passenger train, due here at 4:30 p. m., did not reach the city until after 6 o'clock.

C. E. Benedict, the machinist who had a finger mashed a short time ago, has recovered from the injury and this morning reported for work in the Pittsburg shops.

Five car loads of gas machinery will leave the Kerr Murray works today, consigned to Philadelphia, near which city the company is about to install an immense plant.

Arthur Hicks, conductor at nights on the Pittsburg transfer engine, is taking a short vacation and those duties are being performed by George Sunley, of the east yard engine.

Will Young, of the Packard company, who has been very ill for three or four weeks, is now able to walk and was out doors today for a short time. He will soon resume his duties in the company's store.

D. A. Wolford, of the Pittsburg blacksmith shop, will leave this evening for Cumberland, Md., where his father is lying very sick. The news was conveyed here through a telegram to Mr. Wolford. The sick man is 84 years old.

The verdict of the Prussian minister of railways upon the American locomotives that were tried in Bavaria is that "notwithstanding their faultless construction, they cost considerably less than locomotives of a similar style of Prussian make."

Engineers William Schwartz and John C. McCarthy left this morning for the Kankakee marshes for a few days' duck shooting. The birds are said to be gathering there in great numbers, though the ice and cold weather makes hunting them a little unpleasant.

Indianapolis Journal: "The statement is made on high authority that General Manager Hays, of the Grand Trunk, has offered the vacant position of freight traffic manager of that system to a well known general freight agent of the Trunk lines, and the latter has the offer under advisement."

Guy Hughes and C. S. Fitzgerald, two machinists who were transferred from the Wabash shops in this city to shops at Delray a short time ago, have returned here. They have resigned their positions with the Wabash and will probably take positions in some of the other shops in the city.

Last summer a piece of steel became imbedded in the palm of the left hand of Henry Cathcall, a boilermaker at the Bass works, but never caused any trouble until recently. Last week the hand became so painful that a surgical operation was considered necessary and yesterday Dr. Rosenthal removed the metal from the flesh.

Peru Chronicle: "The parties promoting the electric railway between Wabash and Peru ask $20,000 subsidy from Wabash and will, of course, ask the same sum here. If Peru has to give any $20,000, let it give the sum for the removal of the Wabash railway car shops from Toledo to this city—or twice that sum, or more, if a subsidy will capture them."

George Freeby, who has been off duty for two or three weeks on account of the serious illness of his wife, called at the Wabash offices this morning to say that the sick lady is much improved and that she and her relatives are now entertaining the hope that she is going to be able to get up again. They are greatly encouraged at the change in her condition.

Mr. and Mrs. Granger and their children are today moving here from Andrews, expecting to make this city their future home. Mr. Granger was a freight conductor on the Wabash road for several years, but for some time has been engaged in mercantile pursuits in Andrews. The removal of the division from that city has killed his trade and hence his removal to this city.

About three-fourths of the last year's broom corn crop is yet to be moved to market, and soliciting freight agents are on the alert to secure some of the business. At Mattoon, Arcola and the immediate vicinity there are fully 20,000 tons of broom corn to be shipped, and as ten tons is all that an average car will carry it is a very important item. It is a business that pays a good rate.

It is stated that the big grain shippers of Chicago have men in the country buying everything in sight, who are shipping it to Chicago and St. Louis as fast as the railroads can furnish cars. Of course, there will be a lot of grain purchased, based on the present low rates, that will not be moved when the executives issue orders to advance the rates on wheat and other grains, but it goes without saying that the purchasers will hold the railroads to the present low rates until the last car is shipped.

ACQUITTED OF MURDER.

Hartington, Neb., March 21.—J. C. Harris, editor of the Belden News, was today acquitted of the charge of murdering John Blinkieron. Harris established a case of self defense. Blinkieron was a leading citizen and was a killed in a street duel, the outcome of a political quarrel.

CONFESSES TO SWINDLING.

New York, March 21.—Captain McClusky, of the detective bureau, said today that Miss Harriet T. Clegg, otherwise Mrs. William A. Busnau, formerly of Baltimore, who was arrested last night after returning from Europe, had confessed to him that she had been engaged in swindling by means of checks. She was locked up last night with her two months' old baby, which she took with her to police headquarters today. By her own account she had secured about $1,700 in Baltimore and New York. The woman declares she is not the wife of Dr. William A. Busnau. According to her story Dr. Busnau came to Baltimore about four years ago with a hockey team from Canada and she married him. Afterwards they took a trip to London. She said she afterwards found out that Dr. Busnau had a wife in Canada from whom he had not been divorced.

MURDER OR SUICIDE?

Toledo, March 21.—Col. Henry S. Bunker, a prominent attorney and military man, was found dead in his office today with a bullet wound in the back of his neck. A revolver lay on the floor near him, but it is not known whether it was murder or suicide.

Fever Tossed

with throbbing head and aching bones, nervous, restless and unable to sleep, the weary victim of La Grippe is ready to make almost any sacrifice if he can but get relief from his suffering. Why not try Dr. Miles' Nervine? It is the best medicine in the world for nervous troubles, and you know grip is a disease of the nerves. Dr. Miles' Nervine quickly eradicates the grip germs and overcomes the depressing effects of the disease. It quiets and soothes the nerves, invigorates the appetite, adds fresh life and vigor to the system and prevents the terrible after affects, as pneumonia, heart disease, nervous prostration, insanity. Get a bottle from your druggist and be convinced.

"I was flat down with the grip when I began taking Dr. Miles' Nervine and Dr. Miles' Anti-Pain Pills. I had been trying to fight it away for several days. The Anti-Pain Pills stopped my fever in a few minutes and the Nervine made me feel so good I could go to sleep the first night. In four or five days the dizziness in my head was all gone, my appetite was good, my nervousness had disappeared and I felt like a new man. From that time on I grew stronger every day, and I found that Dr. Miles' Nervine not only cured the grip, but also my headache and neuralgia which I had for years."

HOW IS THIS?

Out of 1834 heavy weight overcoats in dark and light colors, we have only 117 left. These we had intended to pack away this week, but on account of the severe cold weather, we have decided to wait until April 1st, and until then we will discount every heavy overcoat 20 per cent. This brings them at or below cost and way below what they will cost next fall. Only 117 in all sizes and grades.

A. R. SCHNITKER.

RECEIVES AN OPINION ON ELIGIBILITY OF CANDIDATE.

FORT WAYNE, IND., Mar. 16, 1900.
AUGUST R. SCHNITKER, Esq.

DEAR SIR:—I have carefully examined the question submitted by you to me for my opinion and answer as follows:

I am of the opinion that one and the same person is eligible for the nomination and election to fill the vacancy caused by the death of S. F. Baker, late county commissioner, and also for the full term following such vacancy.

I feel quite sure that there is no legal obstacle or objection in the way of nominating, if you desire, and electing at one and the same time the same person for both terms. The provisions of the election law do not necessarily interfere with or prevent this course.

Respectfully submitted,
d&w R. C. BELL.

STORY OF A CONVERSION.

The story of Mr. Allen's sermon tonight at the West Jefferson street Church of Christ will be "The Story of a Tax Assessor's Conversion." The meetings are growing in interest with this splendid weather. Last night a large crowd was present, and yesterday afternoon there were a great many women at the ladies' meeting. Dr. Stemen and the ladies' quartet from the Wayne street M. E. church furnished music for the special meeting. There was one conversion. The meeting will be continued every night during the week.
